Registration Notes:

- This registration code is good only for the ezSigner solution on the machine the original Customer Code was from and cannot be used on another machine.
- The registration code or unlock disk will only be good for one installation of ezSigner. You cannot use the same unlock code on other computers or copy the registration diskette.
- The code that the customer provides is unique to the computer that they have our software installed on.

Transferring the registration code to another PC:
If you desire to move your version of ezSigner to another PC you must transfer registration.

- To transfer registration of ezSigner you ***must*** make sure that you export the registration to disk.
- If you uninstall the program before this is done, the registration is deleted and you must acquire another activation code/registration diskette from sales@pbsoffice.com.
- To export the ezSigner registration, Go to the **Help** pulldown and select **Register ezSigner**, insert a blank, formatted floppy and click the '**Export**' button on the registration screen from within the program.
- Once the registration is exported, the program will no longer function on the current PC.
- **Note:** All Overlays' must be re-created and cannot be transferred to the new machine.
